

## Don't Tell Me Now

Mental As Anything

See that you've come home  
How long has it been?  
If you think you can walk in  
And gatecrash my life then  
Just think again

You tell me you've had fun  
Your face supports that claim  
But it's sad the way that  
You try to impress me  
With name after name after name

Don't tell me now  
Don't tell me now  
You had my love  
Do you want my hate?

You grew up so fast  
I was left behind  
I couldn't believe you  
Could leave me for him  
It really injured my mind

Don't tell me now  
Don't tell me now  
You had my love  
Do you want my hate?

Here you come again  
You haven't changed at all  
You still lie like a sleeper  
And move like a diesel drink  
Till you fall

Don't tell me now  
Don't tell me now  
You had my love  
Do you want my hate
