

# A Hill To Die Upon

## Mental Cruelty

A hill to die upon  
On the throne of blasphemy  
Death became normality  
Infernal flames, I burn

I will decay by the will of nature  
A mountain to reach  
So my soul can be free

The burning cross upon the hill  
Tortured in the mortal remains of humanity  
My kingdom under my feet  
Now it's time for me to bleed  
With iron through my hands  
Over the misty cloud  
A place made to kill  
I broke out of hell letting christ witness all of my wrath  
The suffocation has begun  
You are the disease that feeds their greed  
The machine behind this growing genocide of this evil biosphere  
You are the cancer of this world

I rise from all the abandoned souls  
Descent from the darkness  
My breath so cold  
Marching through the land  
Disseminate the lies of God  
Your sins won't be forgiven on the hill to die upon

My last words  
They are written in blood  
Rigor Mortis  
The bridge between life and death cracks apart  
I see the vultures waiting for their prey

Let the fear spread  
May the light be fooled  
Crucifixion of mankind  
A place made to fucking kill

Time, time to end the sacred genocide

I rise from all the abandoned Souls  
Descent from the darkness  
My breath so cold  
Marching through the land  
Disseminate the lies of God  
Your sins won't be forgiven on the hill to die upon

Tables have turned, now you are on the wrong side  
Look in my face and see that I'm black-eyed  
You have no more place to hide  
Time to end the sacred genocide  
Your last option is the holy suicide

Disseminate the lies of God  
Disseminate the lies of God

Marching through the lands  
Your sins won't be forgiven  
Your sins won't be forgiven  
On a hill to die upon

From a hunter to my prey  
The final extinction begins  
The progress of the holy pursuit increases  
The extermination campaign
