

God Hunt

Mental Cruelty

This is God hunt. God hunt!
Driven by hate
Religious cleansing just begun

Hate in my eyes as I turned the cross and let the darkness rise
I will show him the face of the goat
The rotting flesh under its claws

The roots of evil lays in the entire human race
Surrounded by a force that tracks us down into his place
What we call life is just an endless act of suffering
Trying to escape the consequences of our false beliefs

Created by the omnipotence of satan
There will be hope the extinguish the holy ones and their souls
The darkness shines through his figure
Illuminate this world

The roots of evil lays in the entire human race
Surrounded by a force that tracks us down into his place
What we call life is just an act of suffering
The face of God is hidden behind the stature of destruction
Bree bree bree bree
Worshipping the unknown
Enter the gates to witness a place of purging souls and lost people
Your life has come to an end
Welcome, this is hell!

This is God hunt, a feast for the dead
Satan delivers the unholy flesh
Join me my demons
Come be my guests

Tear your prophet down from the unholy cross
Blaspheme, hellish screams, I'll rape your fucking martyrs

Apostasy, impiety, indignity, and heresy
Burn down your house of untruth
Fabricate, defamate, abrogate, castigate
Burn down your house of
Apostasy, impiety, indignity and heresy
Burn down your house of untruth
Fabricate, defamate, abrogate, castigate
Burn. It. All. Down
