

# Priest Of Damnation

## Mental Cruelty

There is no meaning in life  
The art of necromancy  
The only beauty is death  
In its eternity

Extinction of humanity  
It's something you can't flee from  
The deepest darkest core, I've never seen this hell before  
It will guide me through this place until I can see his face

Black eyes staring back at me  
It will awaken the beast inside, the beast inside of me  
Feeling how my mortality creeps out of my body

The darkness consumes me  
From the bottom of my heart  
The darkness consumes me  
From the soul I sold

The vision of eternal pain becomes reality  
We must abide the lord of the dark  
This part of the legacy is future written agony

I'll let you drown in your own blood  
And the angels start to sing:  
"Please don't let us rot!"  
I'll let you drown in your own blood  
And the angels start to sing:  
"Please don't let us rot"

I embrace your unholy possession  
You're sentenced to death  
The verdict was spoken by the demons of our greed

Now it's time to face our master and let extinct the human race  
And dig our graves  
Six feet deep  
Dig our graves  
Six feet deep  
Bree bree bree bree  
And let extinct the human race
