

# The Venerable One

## Mental Cruelty

In the name of the father  
Die for eternal oppression  
Never escaped from possession  
In the name of the son of God  
From the cradle to the grave  
Human genetic decay in the name of the holy spirit through  
The waste of the earth I can bearly hear your screams of despair  
Since destruction took over liberty in the diabolical age  
Signs of the venerable one fear the cross  
He opens his wings creating a breed  
Blackened eyes in hell I shall be  
A world without a single living creature  
A gathering of the soul polluted minority  
Die in hatred of God  
See all the souls rot  
The human extinction is introduced  
A disgusting process to provide the domination of an abominable race

Look me in the eyes and see I have no remorse  
I will paint your house with your family's blood  
I'll make you beg for fucking death  
There's no where to go but the fucking ground  
I'll make you pray for death cunt
