Fly

Menudo

Yes, I see the tears you cry
I know you're hurting deep inside
Drowning in a sea of memories
Of the way things used to be

You sit at home all by yourself
So no one can hear your cry for help
I just don't understand why
You put yourself through this
Over and over again
Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

I have the key to your happiness
So you don't have to settle for less
Just give me the chance to show you
What's it's like to be loved, babe (Oooh)

You sit at home all by yourself
So no one can hear your cry for help
I just don't understand why
You put yourself through this
Over and over again

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Baby, what I'm trying to say
You're the most precious thing that God has ever made
It's not your fault you were treated that way (treated that way)
So wipe the tears from your face
It's gonna be okay

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone

And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Baby, don't ever let anyone hurt you
You're too beautiful to be all alone
And I know it's hard
Hard for you to see it
Just open your eyes
Spread your wings and fly

Fly (Just fly)
Fly
Fly
Oh Fly (Spread your wings and fly)
Fly (Yeah)
Fly (Don't cry no more)
Spread your wings and fly
