

# Payback

Merauder

Now you're in way too deep  
You made your bed punk now  
We'll put you to sleep  
Thought we would never get the news  
Thought we'd never come for you  
Been too many times around the block  
We seen it all son, you better stop  
From trying to seek props from our name  
Try to gain yourself some fame  
  
Did you see it coming, payback  
  
Now the time has come to pass  
We've come to settle up and kick your ass  
Bad karma's coming to pound  
You're a mutt and you're going down  
Stick your tail between your legs  
Just the thought of me makes you beg  
Talk about pride and respect  
Muthaf\*\*ker that's my foot on your neck  
  
Did you see it coming, payback  
  
Lesson learned, the price was met  
Shut your mouth cause you know what you'll get  
When you see me walking down my streets  
Pay your respect, don't make me repeat  
  
Did you see it coming, payback
