

## Memoria

Mercenary

Father, listen  
Someone is calling your name  
Find me, help me  
Things were just never the same

All of the sorrow you left me  
How can I fight it away

In the silence  
Shadows are flickering  
In the darkness  
My salvation  
Beyond this nightmare  
Left in sorrow

The sorrow of death  
With us it stays  
The memory stays

Mother, hold me  
Promise you'll never let go  
As I'm older life seems so faded to me

All of the moments  
Times we can never get back  
Seize every moment together  
Before it will all fade to black

In the darkness  
In the silence

In the darkness  
In the silence  
My salvation  
Left in sorrow
