

# My World is Ending

Mercenary

Take all that I believe in  
Give it a simple name  
Reveal all my secrets  
And drown me in the shame  
I will redefine  
The questions of the night  
And I will purify  
Forgiveness and the light

It's falling into place  
In clear perspective  
My deepest tragedy  
The world is ending  
So now you speak to me in perfect silence  
Don't take my soul away  
My world is ending

Don't ever speak to me  
To find your salvation  
I know it's hard to be  
And exist in culmination  
I'll take your soul away  
Destroy it and molest you  
And I will set you free  
Don't give your heart to me

It's falling into place  
In clear perspective  
My deepest tragedy  
The world is ending  
So now you speak to me in perfect silence  
Don't take my soul away  
My world is ending  
The world is ending  
My world descending
