

Blue Clouds

Mercury Rev

Feeling your warm body next to mine
Feeling this feeling so fine
Feeling the wind blowing through your hair
Feeling the sun shining on your face

I'm a long time healing
I'm a long time healing

Knowing that I'm sure
Knowing there's a way
Knowing that I'm sure
Knowing there's a way

Watching your eyes watching me
Feeling my smile in your eyes
Walking beside you beside me
Juggling these feeling inside

I'm a long time healing
I'm a long time healing
I'm a long time healing
I'm a long time healing

Knowing that I'm sure
Knowing there's a way
Knowing that I'm sure
Knowing there's a way

Feeling the sky in the clouds
Knowing what I'm a round
Thinking things I never thought of
Feeling your warm body next to mine

I'm a long time healing
I'm a long time healing
I'm a long time healing
