## See You Crawl

**Mercy Drive** 

There are some things that I can't face There are some dreams that I can't chase There is nothing that I can't face There is no dream that I can't chase

There are people Who love to laugh at you See you fall See you crawl

Find the words they say Take your game away See you fall See you crawl

There are some who live above me And they think so little of me There is no one here above me It doesn't matter what you're thinking of me

There are people Who love to laugh you See you fall See you crawl

Find the words they say Take your game away See you fall See you crawl

There are people Who love to laugh at you See you fall See you crawl

Find the words they say Take your game away See you fall See you crawl

See you crawl
