

## Exhale

MercyMe

Inhale exhale  
It's always darkest just before the light  
Inhale and now exhale  
Where there's broken hopes not far behind

Inhale exhale  
It's always darkest just before the light  
Inhale and now exhale  
Where there's broken hopes not far behind

Inhale exhale  
It's always darkest just before the light  
Inhale and now exhale  
Where there's broken hopes not far behind

Rest your head child it's gonna be alright

Rest your head child it's gonna be alright

It's gonna be alright

Rest your head child it's gonna be alright
