

Lost In You

MercyMe

Can't see very far
Lost sight of where I'm going
More scared of getting lost
The one tree that blocks the forest
I'm so afraid
I'm so afraid

First step can be so hard
Can't move through the darkness
Take me to where You are
Ready or not I'm coming
I won't be afraid
I will not be afraid
No

And I
Found my way
Lost in You
Lord I
I found my way
Lost in You
You're my true north
My center
Oh I am found the moment
I surrender all to You
I'm lost in You

I feel so out of control
So terrified of falling
But now I finally know
Your grace already caught me
Now I'm letting go
Oh I am letting go

And I
I found my way
Lost in You
Lord I
I found my way
Lost in You
You're my true north
My center
Oh I am found the moment
I surrender all to You
I'm lost in You

Spirit keep reminding me
I am not alone
'Cause there are days
I'm so afraid
Can't make it on my own
But when You lead
I find my strength
The strength to carry on
So Spirit keep reminding me
I'll never be alone

And I
I found my way
Lost in You
Lord I
I found my way
Lost in You
You're my true north
My center
Oh I am found the moment
I surrender all to You
You're my true north
My center
Oh I am found the moment
I surrender all to You
I'm lost in You
