

Sing (Like You've Already Won)

MercyMe

Somewhere out there hanging by a thread
All of your strength is gone, strength to keep holding on
And don't buy those lies that are in your head
That say you should just give up, that you'll never be enough
Remember, you're a child of the King

Sing, sing like you've already won
Be grateful for all He has done
As long as there's air in your lungs, sing

You're so much stronger than you think
The Spirit that brought Christ back to life is the same one you
have inside
So next time, when there's a wall standing in your way
Sing along with that new song in your soul, and watch them fall
like Jericho, sing

Sing, sing like you've already won
Be grateful for all He has done
As long as there's air in your lungs, sing
Sing, sing like you finally believe
Your name has been changed to redeemed
So with every breath that you breathe, sing

Don't give up, don't give in, go on and raise your voice
Don't give up, don't give in, make a joyful noise
Don't give up, don't give in, go on and raise your voice
Don't give up, don't give in, make a joyful noise

Sing, sing like you've already won
Be grateful for all He has done
As long as there's air in your lungs, sing
Sing, sing like you finally believe
Your name has been changed to redeemed
So with every breath that you breathe

Sing, sing, sing
Sing
Like you already won
Sing like you've already won
So with every breath that you breathe
Sing, sing, sing
