

Hawk

Mereba

I, I can only-
I, I can-
I can only think of-

Thinking of you
I smile on the inside
I hope it's a safe ride
Through infinite space-time
I'm thinking of you
You came like a sunrise
You left like a night fog
And although it feels wrong
It's true

I, I can only think of you (I, I can-)
Think of you, think of you (I can only think of-)

Only in my head now
Honestly, it hurts my chest, nights when we'd go wild
Etched in my mind 'til death
Tell God it's hard, but we trying our best
How far? Ten stars? Galaxies from my grip
Arm 'round my neck
Hit jack, do the most, never less
Sit back in the back of the whip
Deep breaths when they see us in the flesh
Start buzzing by 10, got a check, we blew
We were the wrecking crew
Always untouchable, it was combustible like hot, hot
If I could, I would turn clock
Tick-tick-tock, I see my hawk
And if I walked into our club
And searched for you inside the crowd
Although I know you've gone away
I'd see you there, dancing 'til day

Thinking of you
I smile on the inside
I hope it's a safe ride
Through infinite space-time
I'm thinking of you
You came like a sunrise
You left like a night fog
And although it feels wrong
It's true

I, I can only think of you (I, I can only-)
Think of you, think of you (I can only think of you)
True
I, I can only think of you (I, I can only-)
Think of you, think of you (I can only think of you)

Like a hawk in the sky, I feel like you were flying your whole life
Like a hawk in the sky, I feel like you were flying your whole life
Like a hawk in the sky, I feel like you were flying your whole life
Like a hawk in the sky, I feel like you were flying your whole life
It's true

I, I can only-
I can only think-
I can only think of-
