

My Moon

Mereba

[Intro]

La, la-la, la-la, hmm
Mm, mm-hmm, mm, yeah

[Verse 1]

First I cast my spell
Told you, "Don't kiss and tell
Baby, you know I'm a queen
Don't get cut from the team"
You can ring my bell, baby
No L-O-L
Might get carried out to sea, you
You're safe with me

[Pre-Chorus 1]

There was a wind through the window
And it came with you, ooh-ooh, ah-ah
Stirred me up inside like my gin and juice
Oh, when I look at you

[Chorus]

Ooh, I want you now
I won't wait
I'll be across town
Don't be late
I think you're the one
And the two
I could be your star
You're my moon

[Post-Chorus]

Sun in Cancer, sun in Cancer (Yeah)
Sun in Cancer (You're my moon)
Sun in Cancer, sun in Cancer, sun in Cancer (You)

[Verse 2]

Once it's late at night
Like you in my sight
Even when you're not around
Your light can still be found
Wanna bring you close
You know I do the most
Baby, ain't no room for pride now
You by my side now

[Pre-Chorus 2]

There was a wind through the window
And it came with you, ooh-ooh, ah-ah
Traveled far like a bird here from Timbuktu
Oh, when I look at you

[Chorus]

Ooh, I want you now
I won't wait
I'll be across town
Don't be late
I think you're the one

And the two
I could be your star
You're my moon

[Post-Chorus]

Sun in Cancer, sun in Cancer
Sun in Cancer (You're my moon)
Sun in Cancer, sun in Cancer (Oh-oh, baby)
Sun in Cancer (You're my moon)
Sun in Cancer, sun in Cancer
Sun in Cancer (You're my moon)
Sun in Cancer, sun in Cancer
Sun in Cancer (You're my moon)

[Outro]

Sun in Cancer, sun in Cancer (Ooh-ooh, ooh)
Sun in Cancer (You're my moon)
Sun in Cancer (You're my), sun in Cancer (You're my)
Sun in Cancer (You're my, you're my)
