

Always Do

Meredith Andrews

There's never been a season never been a prayer
Never been a moment when You weren't there
Healing every heartbreak carrying my cares
There's never been a moment when You weren't there

You'll come through
You always do
You will prove
Your promise true
No doubt in my heart
I know You'll move
Cause You always always do
Yes, You always always do

You meet me on the front lines ready for the fight
And every accusation You set it right
I've never seen you give up never seen You lose
Never seen You back down the cross is the proof
I'll never see you give up, never see You lose
Never see You back down the cross is the proof

You'll come through
You always do
You will prove
Your promise true
No doubt in my heart
I know You'll move
Cause You always always do
Yes, You always always do

Oh, there's nothing impossible
Not when it's held in Your hands
Oh, there's nothing too difficult
I know I can't but You can
Oh, there's nothing impossible
Not when it's held in Your hands
Oh, there's nothing too difficult
I know I can't but You can

You'll come through
You always do
Yes, You do...

You'll come through
You always do
You will prove
Your promise true
No doubt in my heart
I know You'll move
Cause You always always do
Yes, You always always do
(I know) You always always do
