

Carry The World

Meredith Andrews

When the weight of everything feels heavy
And I don't even have the strength to even stand
You are by my side You're always ready
To take what I was never meant to hold

I can't carry the world
But You can
You are holding it all
In Your hands
In Your hands

You are peace and You are never worried
So I will choose to trust Your heart is good
You are rest You're never in a hurry
So I surrender all I have again

I can't carry the world
But You can
You can
You are holding it all
In Your hands
In Your hands
Oh, I can't carry the world
But You can
You can
You are holding it all
In Your hands
In Your hands

My God is able
My God is able
To do great things
Do great things
My God is able
My God is able
To do great things
Do great things, yes
My God is able
My God is able
To do great things
Do great things
I know my God is able
He is always able
To do great things
Do great things

Oh, I can't carry the world
But I know You can
Yes You can
You are holding it all
In Your hands
In Your hands
I can't carry the world
But You can
You can
You are holding it all
In Your hands

In Your hands

My God is able
My God is able
To do great things
Do great things
My God is able
Oh God, You're able
To do great things
Do great things
