

Open Over Us

Meredith Andrews

You are not a taker
You are only ever
Giving and drawing
Seeking and calling
You are not a faker
You are only ever
Honest and true
Genuine in all You do

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

Heaven's open over us
Heaven's open over us
Right here, right now
Your heart is pouring out

Heaven's open over us
Heaven's open over us
No fear, no doubt
Your love is all around

You are not a stranger
You are only ever
Father, Provider
Healer, Defender

You are mine forever
And there will be no other
Savior and keeper
Lover, and friend

Heaven's open over us
Heaven's open over us
Right here, right now
Your heart is pouring out

Heaven's open over us
Heaven's open over us
No fear, no doubt
Your love is all around

Heaven's open over us
Heaven's open over us
Right here, right now
Your heart is pouring out

Heaven's open over us
Heaven's open over us
No fear, no doubt
Your love is all around

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

We give You access to our hearts
You give us access to all You are

Heaven's open over us
Heaven's open over us
Right here, right now
Your heart is pouring out

Heaven's open over us
Heaven's open over us
No fear, no doubt
Your love is all around

Right here, right now
Your heart is pouring out
No fear, no doubt
Your love is all around
