

Every Dog

Meredith Brooks

My dog Paco is a big brown lad
He's the best friend I ever had
He's big and strong and works real hard
For tech and family, digging in our backyards

Every day he plays with me
And cookies are his favorite treat
He's not supposed to eat so much
But today we shared my lunch

Cause every dog has its day
Every dog has its day
Every dog has what they say
Every dog has its day

Paco has lots of friends
Playing in the park all the weekend
One, two, three, four, five, six
They run all day chasing after sticks

They get hot and tired, it's cool
In their very own doggy pool
Some are big and some are small
But only one will get that ball

Every dog has its day
Every dog has its day
Every dog has what they say
Every dog has its day

Every dog has its day
Every dog has its day
Every dog has its day
Every dog has its day
This is what they say

Every dog has its day
Every dog has its day
Every dog has what they say
Every dog has its day

Every dog has its day
Every dog has its day
Every dog has its day
