

I Did It!

Meredith Brooks

One leg in, one leg out
Putting on my pants is like a web
One arm in and I just wanna shout
Cause my shirt always gets stuck around my head

Sometimes it's hard, I know you can tell (La la la, ooh)
But I, I did it, I did it all by myself (La la la, ooh)
Just when I think I might need a little help
Well, I did it all by myself

I want to pour the cereal
Sometimes these things get so out of control
It always spills more than it should
But eventually I get some in the bowl

Sometimes it's hard, I know you can tell (La la la, ooh)
But I, I did it, I did it all by myself (La la la, ooh)
Just when I think I might need a little help
Well, I did it all by myself

I did it
I put my shoes on, I did it
I cleaned my room
I closed my hair, I did it
I found my doll
I write my name, I did it
I picked out my clothes
I held my brother
I ate my veggie
I brushed my teeth
I cleaned it
I cut my hair
Oh, no

Sometimes it's hard, I know you can tell (La la la, ooh)
But I, I did it, I did it all by myself (La la la, ooh)
Just when I think I might need a little help
Well, I did it all by myself

Sometimes it's hard, I know you can tell (La la la, ooh)
But I, I did it, I did it all by myself (La la la, ooh)
Just when I think I might need a little help
Well, I did it all by myself

I did it
Bye bye
