Turn It Back Around

Meredith Brooks

It's not easy being a kid
Sometimes you can't wait till you get bit
Don't get me wrong there is plenty of fun
Even when there seems to be so many bumps
Along the way but you're not alone

You got to turn it back around
You got to jump when you fall down
You got to try and work it out
Cause it will take away the doubt
You got to turn it back around

Some things come easy, you don't even try
But just seems everything goes your way
You feel like you're flying then you don't know why you fall
But you're stronger every day
Just give it some time and I'll show you how

You got to turn it back around
You got to jump when you fall down
You got to try and work it out
Cause it will take away the doubt
You got to turn it back around
You got to jump when you fall down
You got to try and work it out
Cause it will take away the doubt

You got to turn it back around
You got to jump when you fall down
You got to try and work it out
Cause it'll take away the doubt

You got to turn it back around
Yeah, yeah, yeah, yeah
You got to turn it back around
Yeah, yeah, yeah, yeah
You got to turn it back around
Yeah, yeah, yeah, yeah
You got to turn it back around
Yeah, yeah, yeah, yeah
