

# C'est La Vie

Merkules

C-Lance

I been going through shit lately (lately)  
I know I gotta face it (face it)  
I don't even feel like the same me (same me)  
It's like I'm in the Matrix (Matrix)  
I can see my mind going crazy (crazy)  
I feel everything fading (fading)  
Trying hard not to let it break me (break me)  
I'm so close I can taste it

I can taste it  
And it don't taste free  
I'm running outta patience  
Singing c'est la vie, c'est la vie

I'm singing c'est la vie  
That's what I said to everyone of you that hate on me  
Just remember when I told you keep that energy  
Now they sliding in my DMs, getting left on seen  
It really didn't have to be like this  
I remember what it's like to have to feel like shit  
Now I make hits on hits, it's like he can't miss  
You learn a lot about a person by their reactions

I just gotta play it cool, keep it low key  
People I don't know now acting like they know me  
Stop with all the cap, homie, you are not my broski  
Everybody say they love but nobody ever show me  
It's just for my day ones that were there from the beginning  
I promise you I got you, that's my word, let's keep on winning  
Mom and dad are tripping out, they can't believe I did it  
How am I so fat if I been running shit like fitness? Yeah

I been going through shit lately (lately)  
I know I gotta face it (face it)  
I don't even feel like the same me (same me)  
It's like I'm in the Matrix (Matrix)  
I can see my mind going crazy (crazy)  
I feel everything fading (fading)  
Trying hard not to let it break me (break me)  
I'm so close I can taste it

I can taste it  
And it don't taste free  
I'm running outta patience  
Singing c'est la vie, c'est la vie

I don't wanna go back to where I was  
Had enough of all of that fake love  
Well money go just as fast as it comes?  
I just want your loyalty and you can have my trust  
I don't wanna make the same mistake twice  
They'll tell you they love you and betray you the same night  
Now it's first class seats, we're 'bout to take flight  
I promise me and you don't live the same life (same life)

It hits different when you came from the bottom  
With the money comes way bigger problems  
I'm just tryna find a way I can solve 'em  
Man, it's all overrated, I promise

I been going through shit lately (lately)  
I know I gotta face it (face it)  
I don't even feel like the same me (same me)  
It's like I'm in the Matrix (Matrix)  
I can see my mind going crazy (crazy)  
I feel everything fading (fading)  
Trying hard not to let it break me (break me)  
I'm so close I can taste it
