

Close My Eyes

Merkules

I know this girl and shes got a story to tell
22 and she's the reason the planets soarin' so well
She's the type of girl to make you smile no matter what the cau
se and any time that you ain't with her you star havin' these w
ithdraws
She's addicting and her beauty it'll catch you from just a star
e
She's genuine, she's loyal, shes actually always there
The type of chick who understands you goin' out with your boys
When you get home all you can think about the sound of her voic
e
She's got a plan, she works hard, she's a leader not a follower
No stoppin' her, her body is hotter than a thermometer
She light the weed up, she blow it out and she don't cough
She a boss, she's the reason at night all I see is stars
She's knows you feelin' down and she'll listen to keep you calm
She's usually always right but admits it when she is wrong
She had a seat reserved and I came along for the ride
And then we turned into a real life Bonnie and Clyde
That's my girl

I see her every time I close my eyes
On my mind, shawty on my mind
I let my girl spark the weed up
She my number one, I'm so in love, I need a breatha
Woah

She picks me up when I've fallen down, she gets on stage when I
call her out
She knows the words when I rock the crowd, if a bitch act up sh
e knock 'em out
She ain't concerned with no drama still and the first time I me
t her I got the chills
Cause our love is a drug like poppin' pills and every girl that
I've met just not as real
So I cherish that and hold her close, no matter where I'm at
If I'm on the road and if I ever wanna talk I call her phone an
d remember everything that I got at home
My girlfreind and my bestfreind, my side kick when my set ends,
my rider chick and my other half, she count my money, I suck a
t math
Shed tatted up in designer clothes, I see her face when my eyes
are closed, she support her self and she buys her own with a s
mile to good for you to try and clone
I'm proud of the fact I love my girl and it sucks sometimes I c
an't hug my girl
But we're both still screamin' out fuck the world and all I'm r
eally trynna say is I trust my girl

And I'm gone

I see her every time I close my eyes
On my mind, shawty on my mind
I let my girl spark the weed up
She my number one, I'm so in love, I need a breatha
Woah
