Merkules

Everybody trynna take what I have now  
They were no where to be seen when it was man down  
I used to hang on the corner with a bad crowd  
Drinkin' 40's every morning 'till we pass out  
Times like leafs in the fall with every single breath like I feel the withdr  
awals  
And I just wanna see what's beneath all the fog  
And maybe I could leave with a piece of it all, but..  
Fuck that, I'mma throw it in liesen  
And I've been in the eight years and the [?]  
Trifle, I write through the night with the lights tinted  
And I've been in the fight for my life, man, it's like prison  
Starin' at the clock while the time tickin'  
I'm makin' everybody's eyes on me so I'm drinkin'  
So anxious, I can't turn the pages, I'm so mad that I'm actually painless  
They thinkin' I'm doin' alright in the spot light  
The role model, I got everything they want, right  
And I'm so fucked that I'm crossed-eyed  
But they still keep askin' where I lost sight?  
Hmmm, man, I want that to 'em  
Just out here doin' what the fuck I choose  
And it's wonderful, I'm not one of you  
I got stuff to do, so yeah, fuck you too

They think I'm crazy 'cause I got some fallen tendencies  
But maybe it's 'cause everybody's lookin' like my enemy  
These cold sweats always tend to get the best of me  
Maybe it's 'cause everybody's lookin' like my enemy  
My enemy, yup, yup  
My enemy  
My enemy, yup, yup  
My enemy  
My enemy  
My enemy  
My enemy  
My enemy  
Just let it breathe

[?] tattoo, mothafuckka  
If I say this direct that you, mothafuckka  
You can't ever do what I do, mothafuckka  
In the stew drinkin' brew with a few, mothafuckkas  
But that's beside the point, but some still missin' until I find the void  
I don't this shit for them, it's 'cause I enjoy it  
Now all these records labels say they wanna sign the boy, nnooo  
I do just fine by my lonely, three bottles down and it's five in the morning  
'Cause that's when I feel like my life is a motion and I'mma keep smokin' un  
til I get exhausted  
I don't wanna talk to no rappers, they act hard but they all got it backward  
s  
They see me out and I got caught in the madness, these keyboard warrior do n  
ot got the password  
I'm so high, I'm delusional, I'm think back on my past like who to known  
And it take to a place where I used to go, where there was no stress and all  
we do is smoke, yup  
And I don't wanna sound like a cry-  
baby but it must be the drugs but I'm faded  
So fried that my eyes get dilated, I can't rap and this track was in sign la

nguage
