Let's gooo

Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun
Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun

Another day is I wait, take my time and get high
Look outside as I rise, take a puff and let's fly
Start the day off right and blaze all types
Mary Jane be the bitch I'll make stay all night
I might lounge around and pound beats while eatin' breakfast
Than hit the shower, maybe even clean my necklace
Slob my nikes on tight, I like Air Max
I keep a stash that's fat, I rock the rare hats
Once I'm prepared and ready to wrap, I get to steppin'
Find my keys and flee quicker off I forget direction
Hop into BM and bent the block quick
Haters see me in grim but then they talk shit
I'm ride buin' wave on my way to the zone
Smokin' heavy like a chevy, chokin' hate to the dawn
Say 'What up?' to my fam, scram
Then go kill a verse, and the end of the day
I stay on top, still I'm first

Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun
Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun

I roll up out the bed and what do I see
A fresh pack bong chop lookin' at me
I watch TV for an hour then I dip to the wash room
And I take a shower and a shit
I clean myself up and I'm checkin' a mail
Looks like I got a letter from a homie in jail
He say he doin' good and he almost out
I write him back like 'Yeah, word, no doubt'
I pour a glass of water and I go through beats
'Cause without this music shit I can't hold my peace
I write the whole song and breakin' the lab
And I finish just in time for some bacon and eggs
Then I smoke another joint and I'm slammin' a beer
Cruise down on Ephin and I grab the new gear
It's 6 PM so I'm hittin' the town next
Pick me up a bottle and I'm headin' the sound check

Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun
Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun

I live a life day to day so what el' can I say
Smoke an hour of Jay until I'm meltin' away
You can tell that I'm baked but I'm well on my way
Workin' hard for my fam, plus I'm sellin' these tapes
Don't dwell on the hate, I take nothin' for granted
I reach for the stars, snatch us on the planets
Trynna understand it but probably not
On the hot summer day sippin' Wobbly Pop
In a [?] and I saw the birth of my son
I'm just here to make music not hurtin' no one
Wake & Bake in the morning and I'm blazin' for days
Well, I'm sittin' in my kitchen, eatin' stake with my eggs
And I'm takin' a break, lookin' for my smoke pack
Dirty ass habit got me chockin' and I know that
I gotta give it up sooner or later
I'm still makin' tape as I ruin these haters

Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun
Wake up in the morning and I'm feelin' alright
Can't remember what we did last night
All I'm really trynna do is have fun
All I'm really trynna do is have fun
