

LowKey

Merkules

Twista, I see you OG
Yeah I see you Merkules
Chicago to Canada. Yup (hahahaha)
We gonna keep it lowkey
C-Lance

A lot y'all dudes try to sit on the throne
But I'ma show them what its like when I get in my zone
Kill 'em fasho, I'ma need another Ritalin dose
My shit dope, like the coke that you stick up your nose
Man, I'm really the epitome of lyrics and flow
Someone pass the baking soda, I just lit up a stove
Let it be known, I'm a killer when I'm sipping Patrón
Until I feel like Busta Rhymes, like "Gimme Some More"
They don't really want no beef with the kid
Put the heat to your rib, now you cease to exist
Fuck Covid, I really got a fever, I'm sick
I'm a beast, I been eatin' these beats from the rip
Got a team full of gents and they squeezin' the clip
Till it's empty so test me I'm eager to trip
Put 'em in a box like receivin' a gift
No face, no case so I'm pleadin' the fifth
It can really get messy huh
Cops wanna come arrest me huh
I'mma show 'em what it's like when I put 'em on ice like my name's Wayne Gre
tzky huh
Ain't nobody got a stamina like me
If you got a problem with it then you have to come fight me
I can guarantee you ain't seen half of what I've seen
I'mma blow your brains out on the back of your white tee
So you better stay home tonight, the poltergeist
I'm tellin' you I'm so precise
I'm prone to fight and never been the chokin' type
The prototype, a veteran destroyin' mics
I know my rights, I pull up on a motorbike
And send shots at your whip through your dome, good night
And now your name's on the news
You could say I'm the dude that just made you a celebrity overnight

I heard 'em talkin', they don't even know me, I'm just chillin' tryin' to ke
ep it low key (Keep it lowkey)
Everybody tryin' come for my spot I work hard for everything that I got (So
just keep it lowkey)
I got brothers that'll die for me, so no matter what they'll ride for me (We
should keep it lowkey)
Where I'm from no one rides for free so I'm making sure my guys can eat (Gon
na keep it lowkey)

Anybody want it, anybody get it, I'mma get up on 'em
Killin' my opponent, an originator, been a demonstrator
And I'm innovative when I get a plate of dinner when I ate it
Seen it was a hater lookin' for the way to take away the paper
Of a motivator, of another showin' they can make it
Knowin' they can take it to another place when I like it
That's why I kick lyrics like a tyrant
I spit venom like it's violent
OG ought to get up out the seat but if I do

I hit 'em with the heater then I hit 'em with the Heimlich
Maneuver to move 'em and reanimate 'em
And murder them again and again
With the rhythm that I'm firin', like "blocka"
Make 'em disappear then reappear like "ta da"
Send 'em to another dimension like sci-fi
Put your spirit in the air with the Wi-Fi
Make you a ghost, even if I wouldn't have
But the watches still make you approach
You claimin' you dope, get a few rings on your finger
Before you just claim you the GOAT
You don't really know me, keep it discreet
Though I'm keepin' the heat and I keep it low key
I get people on me that be after my riches
If you want some permanent sleep, it's on me
I can be just chillin' with the lean
I can blow you into smithereens
Lyrics break your body like a locomotive
Then I hocus-pocus from the scene
No need for you to be comin' for my spot
I'mma never be with nobody takin' what I got
Cleverly I spit, if you look into my knot
You gon' be the one committed to lookin' in my Glock
