

No Offence

Merkules

Yeah
Versvs
Calgary, Surrey, all the way to Napoli
You know you're gonna get bars no matter what
Listen

The curtain's opened and the show commenced
Work every day to guarantee that I'll have no regrets
I told 'em they don't want the smoke, it should be common sense
But we polite, we kill these rappers and say no offense, like no offense

But man there's levels to this shit and what you're witnessing is different rap
I listened to the radio the other day and man that shit is wack
Might lift a gat, put it between your teeth and make that shit go braa
We on the bridge motherfucker, that's how we bridge the gap
But I'm not a gangster though, I'm just in battle mode, the rapid flow
Could rap it slow, no matter what I have the code, you grab the phone, the only writing you compose
Is in your captions, hoe, it's funny how a quote in your status is the new status quo
Ike damn it, bro, but if we rapping there is no debating
I just gotta fix my head, feel like I'm losing all my patience
Thousands around the world say I'm an inspiration
But the one I love thinks that I'm failing so I lose my motivation
But the booth is my salvation and I'm back with a new verse to lay
Just to make sure what hurt yesterday doesn't hurt today
You don't believe in me? You'll be the first to pay
I'm rapping till I lose my voice, got me looking like Merk on sway

The curtain's opened and the show commenced
Work every day to guarantee that I'll have no regrets
I told 'em they don't want the smoke, it should be common sense
But we polite, we kill these rappers and say no offense, like no offense

No offense, it gets so intense, when the flow commends
The metal's on me like Boba Fett, better hold your breath
The boy got more bars than shoulder reps on a bowflex bench
You'd think I'm in construction, I throw a wrench when I roll by feds
Got no regrets, I live my life like a super villain
Somebody pass me the pop corn for the crucifixion
The new crib got surveillance cameras for super vision
I'm too prolific, a different breed like I'm superstitious
You better cool it like new edition 'cause you can get it
A sick fuck, watch me use a shiv like they do in prison
I make moves like I got an eviction notice
Kill a rapper then I laugh as I walk by the missing posters
I pull a stick out, aim it, and bring commotion
Since I got 'em in they feelings, let's give 'em some mixed emotions
I told Versvs once I have the beat I'm killing it
I'll put that shit on Canada to Avellino, Italy, it's Merkules

The curtain's opened and the show commenced
Work every day to guarantee that I'll have no regrets
I told 'em they don't want the smoke, it should be common sense
But we polite, we kill these rappers and say no offense, like no offense

O buon vèn a sott a tutt brind cu nu flute
Smok ganja rettiliana, l'è araput? Sap è frutt
Si sent sti canzoni toie po premm mute
Sang ngopp o mantiell e vellut, Scaric litr e Vermut
Iena white stereo e muore ogni batterio spacco
Con il rap serio ganja di orio al serio
Abbarr l'uocchie quann o viagg se fa chiu pesant
Merkules, Clementino, Versvs, flow diamante
Roba che viene da qua imparanoiati nelbar
Pedi nell' abilita' fuori probabilità
Fra ma non abiti qua, non vesti gli abiti qua
Eniente schiavi di qua, frate non chiavi di qua
Spacco coi passi di rap, fumo e non passi sto gas
Tacco di Messi et voilà, Messi nel sete chissà
Si ma mo fra K S fa, marchiat ngopp a nu bracc
Vir ca saglie e minacc, cienne addu me e te ne caccio

The curtain's opened and the show commenced
Work every day to guarantee that I'll have no regrets
I told 'em they don't want the smoke, it should be common sense
But we polite, we kill these rappers and say no offense, like no offense
