

Sniffing Ritalin  
Killing em just for listening  
Be literal  
I'm lyrically shitting on all these simpletons  
They know that I'm the illest  
I'm filling up with adrenaline  
I'm veteran  
I'm heavy like metal  
My shit is venomous  
You better get me sedatives  
Effortless with the penmanship  
I'm deadlier than ever  
I said it I never let em live  
You better say I'm better than anybody  
Just send them in

They say I look like a panda  
But me I think I look way more like a bear  
Fuck a fork in the road  
Put the fork in your ear  
Cause I'm morbidly tortured  
I torch your career  
Sitting on a porch with a beer and a semi-  
automatic pistol you've been warned, I don't care  
Kill you then I pick the body up from the ground then I take a selfie with y  
our corpse in the mirror  
Yeah  
I'm the coroner here  
Chloroform in your orange juice  
I'm sort of just weird  
I was born, end up poor with a soul full of fear  
So of course I was forced to be colder this year  
I'm a stompdown killa  
Gorilla giving em everything that they could ever ask for  
Get buck, I'm a sick fuck  
In a big truck with a trunk full of bath salts  
You ain't half this raw  
Jump through your computer and then I'm beating you to death with your Macin  
tosh  
For acting hard  
Looking like you're Asher Roth  
You don't even stand a chance I am Hasselhoff  
I don't really give a fuck about your broads in Atlanta  
They mad cause my momma never taught me no manners  
Do it for the cause  
You can watch on the camera  
You're all at the bottom  
I just crawled up the ladder  
After this you're gonna need new speakers  
The rap game discovered a new leader  
I'm not a panda I'm a fucking zookeeper  
Drink a Fanta right out the two liter  
All I'm trying to say is I don't know what is going on lately with all this  
weird music now  
If you put your favorite rapper right in front of me  
Then I'mma come though and shoot him down. POW!

I know I ain't the slimmest guy  
But ya'll just living lies  
And the shit that you're doing right now is not hard motherfucker here let me try  
All you gotta do is talk about a bunch of shit that you don't have  
Maybe rent the car  
And then rent the chain  
And then drink some lean  
And just go ham

I got arm and hammer  
I'm so fat they think I'm Santa  
Tater tots and some Fanta  
Hoe's say damn like I'm Daniel
