

Right Now

Merkules

I just poured a drink, and I hope that it kick in right now
I hope that it kick it right now
I just took a sip
So fuck it, I'm just chillin' right now
Fuck it, I'm just chillin' right now
I'm goin' all lit, yah
I give a fuck about your feelings right now
I give a fuck about your feelings right now
I'm just trading crib
So let's turn it to a million right now
Let's turn it to a million right now

I remember when we ain't had shit (That's right)
Hundred bucks to our name, that's it
Now I got a hundred 'k in the same mattress
You would hustle on the corner, that was way back then
And then it switched up, now we on one
I mean I'm on three cause I'm not done
I'm with squad goals cause they're not us
On the groundhog they just popped up, yah

Now I got money to spend
And I'll turn it up to a hundred and ten
They love but they never fucked with me then
I don't drink dirty my cup full of hen
I told 'em I'm sorry I'm nothin' like them
I'm holdin' weight, I come up in the gym
So these dudes I'm not concerned with
They too busy trynna find a purpose

I just poured a drink, and I hope that it kick in right now
I hope that it kick it right now
I just took a sip
So fuck it, I'm just chillin' right now
Fuck it, I'm just chillin' right now
I'm goin' all lit, yah
I give a fuck about your feelings right now
I give a fuck about your feelings right now
I'm just trading crib
So let's turn it to a million right now
Let's turn it to a million right now

Fuck feelings, get paid
I can teach you how to slang
Repercussions to the game, loyalty over the fame
Wish that you could say the same
Nah, you a bitch, you are biter
Went from hundred to a spider
No love for you liars, more guns than al qaeda
More drugs for all nighters
It's all on the table like Tony
Jump like fifty on the rollie and that's for the shorty
You rapper are boring, we just keep touring
Fresh of the plane like a foreign, ah
Blood in my mouth while I'm pouring, ah
Chain dancing, I'm gorgeous
Make that on my mortgage

Won't stop till we forbes list

I just poured a drink, and I hope that it kick in right now
I hope that it kick it right now
I just took a sip
So fuck it, I'm just chillin' right now
Fuck it, I'm just chillin' right now
I'm goin' all lit, yah
I give a fuck about your feelings right now
I give a fuck about your feelings right now
I'm just trading crib
So let's turn it to a million right now
Let's turn it to a million right now
