

You can find me in a drop top Benz
With the roof off rollin up with all my friends
Cause I been on the grind like Tony
And we 24 deep taking shots like Kobe
Momma told me slow down, she know I'm goin' in now
I live a rockstar lifestyle

Never the less I remain the truth, got vvs on my chain to boot
Can't settle for less make major moves, I broke em all then I made the rules
Go to war with the stars in a Vader suit, every shot I took straight 80 proof
This right here what I'm made to do, I put it all on the page and I break the booth
I risked it all for me to get here, I know they hating on the fact I kept it sincere
I had my best year this year, now I'm riding down the highway bout to switch gears
I know they won't believe till its real, so I keep it 103 I got a fever with the chills
Had these number one albums fo I even got a deal, if I check the bank account ill probably see a couple mill
I know I gotta stay humble in the process, I'll still address the fact I'm from the jungle they forgot that
If they want the smoke then they can come and get in contact, and if not ill keep winning mawfucka this is gods plan

Way too much I can take for granted, I was blind to the fact they take advantage
I was lost in my thoughts with crazy habits, so I gotta thank god I became established
Fucked in the head my brain is damaged, I close my eyes I paint the canvas
Dealt with the stress and the pain and anguish, now I'm steppin' on stage as the main attraction
Who woulda thought, who woulda known
I can see they in they feelings I got here all alone
Now I'm on the top, I'm on the throne
You can't see me with a pair of binoculars I'm gone
And its, unfortunate you feel that way
But no matter how you feel I'm gon still get paid
I'm not consumed by the fortune or fame
Cause I'm aware of the regret and all the torture it brings
I'll just, keep it moving I know what's true in my heart
Light the weed up play the beat and then all I do is get lost
And I'm thankful for life now, cause I know it used to be hard
So if I make shit you relate to I know I'm doin' my part
