

## Sedatives

Merkules

Feel insane, still remain blinded by the truth  
Take your pain everyday kill your point of view  
Till your eyes roll back inside your head  
Realize you're happy when the sedatives in you

Two down I can feel it in my palms sweaty  
Rock steady and wobbling cause I'm top heavy  
Already Imma chill and see what happens  
Kill a beat with passion when I'm sniffing E and Xanax  
I do it often they compare me to a junkie  
Better be aware this shit is scary in my country  
Every day I buzz when I barley got the money  
Apparently I'm hungry got me cherishing this 20 bucks  
Stained shirt pain hurts with the built aggression  
Face first the same Merk that you're still upset with  
Fake jerks who make work outta pill collecting  
A crazed curse that tastes worse than a pill obsession (ugh)  
I must have thought it all was over  
A steady rock and rolla' till I'm getting guap like Oprah  
Grimy on the loose and I'm still hiding in the booth  
High and tied up with a noose  
I've been blinded by the truth  
Sedatives

Feel insane, still remain blinded by the truth  
Take your pain everyday kill your point of view  
Till your eyes roll back inside your head  
Realize you're happy when the sedatives in you

I can't breathe, can't see cause' I'm comatose  
Holy smokes hope for dope, gulpin' with a broken smoke  
I stay inside and get hella sick off sedatives  
Sending instant messages I'm better with my penmanship  
I'm an addict gotta have it, man I'm never clean  
Smell it in the evergreens testing the Promethazine  
Severing the heads a queens questioning a better dream  
Fresher than a bed and sheets effortlessly wrecking beats  
Yeah I got it like that now your whack style mad fowl hit em' l  
ike man down  
A cash cow stacks pile show em' like that's how  
Last round then I pass out in a crack house I'm ruthless  
And Imma do it till I'm stupid fried euthanize rappers for prac  
tice I'm living do or die  
Cruising by most of these spittas are sitting booster high  
Who am I? the next best I do it live
