

## Sick Kid

Merkules

Damn Brandon, that's cold

Ever since the youngin' doctor said I was a sick kid  
Mama say I'm different, he not twisted, he just gifted  
Always was the last one picked, sittin' in the benches  
I ain't really trippin' now, I'm in your bitches mentions

I just smoked a blunt and watched a movie  
Look at all this ice, I'm Todd Bertuzzi  
She opened up her mouth, I [?]  
It's that Louis, Fendi, Goyard, Prada, Gucci  
Every bathroom in the crib got bidets in 'em  
Catch me at the party next door like I'm with Drake and Em  
Went from playin' pubs with shoulder ups now we in stadiums  
You would think I'm Irish, mix the pickle juice with Jameson  
Let's go  
I swear it's not my fault  
That's 20K a show, you see my face on all the block  
You could save up your remarks  
Never change up from the start  
I'm the fat chef Ramsey  
I came through with the sauce

Ever since the youngin' doctor said I was a sick kid  
Mama say I'm different, he not twisted, he just gifted

What a cutie as she suck me like a smoothie  
Her name's Judy, I just nutted on her boobies  
This bitch gave me cooties  
At least I think that's what it is  
My dick itch, drinkin' whiskey  
I don't really fuck with troolies  
I think I'm in too deep  
Think the police wanna come and get me  
Think my homies wanna dead me, they against me  
Pickin' fights with strangers, paranoid  
I guess I ain't really friendly  
Sippin' nasty, screaming 'Rest in Peace to Chevy'  
All to say some Gretzky  
With a pretty dyke, we bumpin' Neck Deep  
We gon' catch him lagging at the [?]  
He just got hit by a semi  
Fuck him by surprise, he wasn't ready  
That's what happens when you're talkin' crazy  
Now your mom just lost her baby

Ever since the youngin' doctor said I was a sick kid
