

Ten Toes

Merkules

I won't tell you 'bout the shit that I seen
But I promise no one did it like me
No one did it like me
I'm on top and I'm bringing my team
They just mad that I'm living my dreams
I been living my dreams

I'm right where I left off with the fork in the road
I'm cold-blooded, I don't need to wear a coat when it snows
I'm in a Caddy, rolling fatties, blowing smoke out my nose
And it's crazy to think I've ghostwrote and nobody knows
So you can steal a recipe but you don't got the sauce still
I just called my demon, now these diamonds doing cartwheels
Lying in they music so much I don't know what part's real
I might paint the cool part orange and name it Garfield
Dog, chill, you been going crazy lately
I don't really give a fuck, I'm only here to make you hate me
Rather be told I've got the evidence shows
Then I'ma keep it ten toes, d-d-d-death row

I won't tell you 'bout the shit that I seen
But I promise no one did it like me
No one did it like me
I'm on top and I'm bringing my team
They just mad that I'm living my dreams
I been living my dreams

We on top and ten toes down
We on top and ten toes down
We on top and ten toes down
We on top and ten toes down for life

See I been in the streets like those green metal boxes
'Cause life is a business, she acts like she's never toxic
It's like I blink, now I'm going overseas like the Loch Ness
Just on the rap game and I been keeping it hostage
Knee-deep in the projects, we had to make it work
'Cause it was either that or we would have to face the worst
Kinda outcomes, how come there's so much pain it hurts?
If you scared motherfucker you shouldn't probably stay in church
I don't wanna ride the wave 'cause I could probably buy the boat
I been steering this own ship while all these rappers try to float
I'm way too fucking fat to ever buy designer clothes
They won't fit me but fuck it 'cause I'm the realest guy I know
They gave me money and fame but I promise I just stay the same
Won't turn my back on my homies over some monetary gain
Know how to copy everybody, you can watch me pave the way
It ain't a race but you gon' need a whole army to take my place, Merk

I won't tell you 'bout the shit that I seen
But I promise no one did it like me
No one did it like me
I'm on top and I'm bringing my team
They just mad that I'm living my dreams
I been living my dreams

We on top and ten toes down

We on top and ten toes down
We on top and ten toes down
We on top and ten toes down for life
