

Mexico

Merle Haggard

Mexico, the jolly oases located below
And you'll like it better the farther you go, in Mexico

Mexico, there's music, there's parties, tequila and show
South of the border where anything goes, in Mexico

Don't be afraid of banditos
Don't believe what you've heard
'Cause we know outlaws in old California
Better fly south with the birds
South of the border where anything goes, in Mexico

Don't be afraid of banditos
Don't believe what you've heard
'Cause we know outlaws in old California
Better fly south with the birds
South of the border where anything goes, in Mexico
