

What Love Can Do

Merle Haggard

What love can do
Is build a bridge for two
And make our dreams come true
That's what love can do.

What love can do
Is make his need to live
And make you want to give
That's what love can do

And when your whole world
Goes spinnin' out of control and you're alone
And you're needin' someone to hold
An old friend from somewhere touches your soul
And love comes true.

What love can do
Is a way to make you smile
And make your life worth while
That's what love can do

And when your whole world
Goes spinnin' out of control and you're alone
And you're needin' someone to hold
An old friend somewhere touches your soul
And love comes true.

What love can do
This make you want to smile
Can change the world around
That's what love can do
