

Where Have You Been

Merle Haggard

Look around you, look at your friends
They're still out there, but where have you been?
You better get busy, start calling them in
'Cause they still love you, but where have you been?

You better get friendly and keep all your friends
If you wanna be loved, you gotta give in
Pick up the pieces, start over again
Your friends still love you, but where have you been?

You better get friendly, keep all your friends
If you wanna be loved, you gotta give in
Pick up the pieces, start over again
Your friends still love you, but where have you been?
