

Hello Hello
I took my time in preparation
Studied hard
For this long distance conversation
But when I get on yon the phone
All the courage in the world has left me

It's a stupid situation I'm in
I've thought for hours but I don't know
Where to begin
I'd give the world to buy the words
Just to hear your voice again
I'd give the world to buy the chance
To relieve the state I'm in

It's late at night
And I'm looking through my phonebook a-z
It was just a kiss
But I'm sure to lose the halo around my head
I feel it in my lips
In the time it takes to dial your number

It's a stupid situation I'm in

I've thought for hours but I don't
Know where to begin
I'd give the world to buy the words
Just to hear your voice again
I'd give the world to buy the chance
To relieve the state I'm in

Surprise surprise
You pulled the arrow from your heart
And keep it prized
I give up resigned to suit a life in crime
The money in the bag
And my getaway car is just outside now

It's a stupid situation I'm in
I've thought for hours but I don't know where to begin
I'd give the world to buy the words
Just to hear your voice again
I'd give the world to buy the chance
To relieve the state I'm in
