Automation Baby

Mesh

You can be whatever you want to
You can say what you need to say
You don't care if the party's over
There's always somewhere new to play

And you don't see the fascination
Of anything around you
It's just a world tied up with wire
And you don't need to know
It's automation baby
There's always somewhere else to go

That's automation baby
Just automation baby

You don't need to be protected
Because nothing shocks you any more
And you don't care if you're rejected
You drag and drop them when you're bored

And you don't see the fascination
Of anything around you
It's just a world tied up with wire
And you don't need to know
It's automation baby
There's always somewhere else to go

And you don't feel the power of nations
It's just a world lit from behind
And you don't need to grow
That's evolution baby
There's always someone else to know

And you don't see the fascination
Of anything around you
It's just a world tied up with wire
And you don't need to know
It's automation baby
There's always somewhere else to go

That's automation baby
Just automation baby
