

Everything I Made

Mesh

I know this makes no sense
I'm gonna try and explain
All that you're feeling
To try and unlock your pain
And I beg forgiveness
If that's what it takes
Or has all this been wasted

Cause yesterday was good
But yesterday is gone
Everything I said
It always took too long
And I broke all my promises, so easy
And I broke all my promises, so easy
And there's just enough

Everything I did
Ended up so wrong
Everything I made
Never lasted long
Everything I did
Ended up so wrong
Everything I made
Never lasted long

You know it's not your fault
And it could feel like a game
I'm lost in this moment
I'm always shifting the blame
And you pull your punches
Can't you just follow through?
You just don't deserve this

Cause yesterday was good
But yesterday is gone
Everything I said
It always took too long
And I broke all my promises, so easy
And I broke all my promises, so easy
And there's just enough

Everything I did
Ended up so wrong
Everything I made
Never lasted long
Everything I did
Ended up so wrong
Everything I made
Never lasted long

[illegible]

There's just no other way

Everything I did
Ended up so wrong
Everything I made
Never lasted long
Everything I did
Ended up so wrong
Everything I made
Never lasted long

I never meant to hurt you so much
I've broken everything that I touch
We shouldn't have to spend our lives
Stuck in the past making it last forever
I never meant to hurt you so much
I've broken everything that I touch
We shouldn't have to spend our lives
Stuck in the past making it last forever
