

Not Prepared

Mesh

The clouds are rolling in
Like a barrier of sin
The colour of the sky
Spells the end for you and I

And we're not prepared
What happens to us if we don't get there
And we're not prepared
What happens to us if we don't get there

Waiting for the rain
Will it cleanse me of the pain
Purging all the lies
That finished you and I

No, I'm not prepared
What happens to us if we don't get there
No I'm not prepared
What happens to us if we don't get there

And I'm feeling tired
And I'm looking slow
And I feel so cheated
But there's nowhere left to go

Do what you feel, not what you say.

And we're not prepared
What happens to us if we don't get there
And we're not prepared
What happens to us if we don't get there

Do what you feel, not what you say.
