

# The Last One Standing

Mesh

Everything you do  
Everything you've done  
You leave us wanting more  
We'll always need some more

Every word you say  
On every tedious day  
We'll always want some of that  
You'll hear us cheer from the back

And you need to feed us every day  
And you know you'll beat them  
Because they don't know how to play

You'll be the last one standing  
It's all we need to know  
Don't ever fade away  
You'll be the last one standing  
It's all you need to show  
Don't ever fade away

Every vacuous friend  
Who's with you to the end  
They're nothing without you  
They didn't think it through  
Pull a faded star  
From a blacked out car  
And they will make you shine  
Welcome to prime-time bitch

And you need to feed us every day  
And you know you'll beat them  
Because they don't know how to play

You'll be the last one standing  
It's all we need to know  
Don't ever fade away  
You'll be the last one standing  
It's all you need to show  
Don't ever fade away

And won't we all be forgotten by tomorrow anyway?  
And won't we all be forgotten by tomorrow anyway?

You'll be the last one standing  
It's all we need to know  
Don't ever fade away  
You'll be the last one standing  
It's all you need to show  
Don't ever fade away

And won't we all be forgotten by tomorrow anyway?  
And won't we all be forgotten by tomorrow anyway?  
And won't we all be forgotten by tomorrow anyway?  
And won't we all be forgotten by tomorrow anyway?
