

Let's talk about this before we scratch out our eyes
There's no such thing as you and I both being right

I've got a lot to say about this mess we've made
After all is gone I still think of you

Always think of you
Always

Let's talk about this or will both be up all night
Can you forgive me for the things I said that night

I've got a lot to say about this mess we've made
After all is gone I still think of you

I still think think of you
I still think think of you
Always think of you
Always think of you

I still think think of you
I still think think of you

And if there's really no ending
Let's make up for the past
You know there's really no ending
So forget about the past
