

Almost Forgot

Mest

I'm breaking from the pressure
And it feels like no one understands
With every passing moment
I'm fighting all I can

And I almost forgot

It's a long way down
When you're lost but not broken down
It's a long way down
From the bottom to the top

You said you'd always be here
But in the end you didn't show
Feels like I'm frozen in time
Left to wander on my own

And I almost forgot

It's a long way down
When you're lost but not broken down
It's a long way down
From the bottom to the top

Turn the lights way down low
Sink to the bottom I just let go
With each day that passes one by one
It's harder to reach what I've become

And I almost forgot

It's a long way down
When you're lost but not broken down
It's a long way down
From the bottom to the top
