

Empty Room

Mest

I try to erase this mindset
Smoke another cigarette
Try to forget
So I keep
I keep on walking
But too often I'm left talking to myself again

I can see your shadows now

I keep the light on by your bedside
Close my eyes and say good night to you
Can't say goodbye to you
The smell of cigarettes and alcohol
Is all that I have left of you
Inside this empty room

I'm not alone not alone completely
Cause I've got you and you've got me
And now I'm thinking
When the world started sinking
I grabbed your hand
Search for some meaning
Through this chaos
Try to find our new beginning

Our picture frames are empty now
And I

I keep the light on by your bedside
Close my eyes and say good night to you
Can't say goodbye to you
The smell of cigarettes and alcohol
Is all that I have left of you
Inside this empty room

I never saw the signs of warning
This house is boarded up and broken

The holes that fill these walls
With empty picture frames
Is all that's left of you
Inside this empty room

I keep the light on by your bedside
Close my eyes and say good night to you
Can't say goodbye to you
The smell of cigarettes and alcohol
Is all that I have left of you
Inside this empty room
