

# Hate You Sober

Mest

Here we are once again  
The beginning of the end  
Are you even listening  
Talking over every word I said  
For all the times that you've left me  
Alone feeling empty  
Now it's over it's the last time

Sorry, it's over  
Cause I can't stand you sober  
No, you can't save me  
You keep dragging me down  
I keep on drinking  
To keep myself from thinking I  
I fucking hate you sober  
I fucking hate you sober  
I fucking hate you sober

In the mirror, I don't see myself  
Looking back at someone else  
Mentally hung over  
I couldn't stand being sober  
Lost my mind became realistic  
Stuck in your world you're so narcissistic  
Can you even hear me I said goodbye

Sorry, it's over  
Cause I can't stand you sober  
No, you can't save me  
Ya keep dragging me down  
I keep on drinking  
To keep myself from thinking I  
I fucking hate you sober  
I fucking hate you sober  
I fucking hate you sober

Down the rabbit hole, we go  
Another dog and pony show  
Listen to you scream and shout  
One more drink till I black out  
Can't let you put me in the ground  
I'm sober now

Sorry, it's over  
I fucking hate you sober

Sorry, it's over  
Cause I can't stand you sober  
No, you can't save me  
Ya keep dragging me down  
I keep on drinking  
To keep myself from thinking I  
I fucking hate you sober  
You keep dragging me down  
I fucking hate you sober  
You keep dragging me  
I fucking hate you sober
