

I Am Right Here

Mest

There's a part of me
That is easily
Left to wonder
If you still care
Heavy bottoms
Cause me problems
In my head
I'm getting low

Hit the bottle away I go
Pushing boundaries or take it slow
Would you miss me? I still don't know
If this makes sense in the end

I am right here
But it always feels like you care
About everyone and anything but me
So if that's how you feel then I'll leave this
Far behind
You're good at wasting my time

There's a part of you
That I never knew
Years lost to someone
I don't know
Gone forever
Is this better
Fight the panic
'Cause you let go

Hit the bottle, put on a show
Pushing boundaries or take it slow
Would you miss me? I still don't know
If it all makes sense in the end

I am right here
But it always feels like you care
About everyone and anything but me
So if that's how you feel then I'll leave this
Far behind
You're good at wasting my time

There's no turning back now
There's no turning back now
There's no turning back now
There's no turning back now

I am right here
But it always feels like you care
About everyone and everything but me
So if that's how you feel then I'll leave this
Far behind
You're good at wasting my time
