The Innocent

Mest

The start of Armageddon, it was just another day
We all saw the news nothing to say
So many friends are missing, our family members gone
So we all pray that God help them be strong
And now we stand together, remembering that day
The lives we live will never be the same

We don't know why, the innocent die
Will this world ever find a way to change
And we don't know why, but we know it's not right
Don't know why so many had to die
I don't know why so many had to die

Hate is turned to others, for their religion or their skin
But hate can't solve the problem it began
Everyone is angry, people are afraid
And no one knows what decisions will be made

We don't know why, the innocent die
Will this world ever find a way to change
And we don't know why, but we know it's not right
Don't know why so many had to die
I don't know why so many had to die

We don't know why, the innocent die
Will this world ever find a way to change
And we don't know why, but we know it's not right
Will any of us ever be the same
Will any of this ever be the same
We don't know why, the innocent die
Will any of us ever be the same
Will any of this ever be the same
