

The Upside Down

Mest

I have been feeling out of place
Feels like I've left without a trace
I have been missing for so long
Feels like my world has turned to black
They say there is no going back
When all that I had is now gone

When did the world change?
Feels like I'm in the upside down
I'm standing at the bottom
With nobody else around
When did the world change?
Feels like I'm in the upside down
I hear your voice of reason
But I'm nowhere to be found

The upside down
The upside down
The upside down

Sometimes I start to wonder
Was it you or me that took me under
And left me alone in this empty place
I hear your voice but can't see your face
Insanity starts to replace
Got nothing left I can't escape

When did the world change?
Feels like I'm in the upside down
I'm standing at the bottom
With nobody else around
When did the world change?
Feels like I'm in the upside down
I hear your voice of reason
But I'm nowhere to be found

The upside down
The upside down
The upside down

Is my time running out
When did the world change?
Is my time running out?
Cause I don't feel the same
Is my time running out?
When did the world change?
Is my time running out?
Cause I don't feel the same
Feel the same

In the upside down
In the upside down
In the upside down
