

These Streets

Mest

Timmy swore he'd be a baseball player
And Johnny swore that he would go to the moon
Jerry had real potential
But to the life of drugs is how he'd lose
I saw failure in Aarons eyes
When his mother told him of his father's lies
Steve was only 17 when his son was born
While Jessica left him broken and torn
How can a kid become a man
If he's broken inside and he don't understand
They wrote me off they said I'd go nowhere
Tried to say that my parents didn't care
But with open arms they stood by
I'm sorry for all the nights I made them cry
This is the street that made me who I am
If I could go back I do it all again

Cuz this street was our playground
I can't believe that it's over now

As I stare out the window
All that remains are shadows
Images left that once was
Broken dreams left from us
You can take these scars away
But I'll still bleed right here
Cause I don't wanna leave
Cause you believed in me

Cuz this street was our playground
I can't believe that it's over now
Yeah these streets were our playground
I can't believe that it's over now

Thoughts of where all the time went
Our dreams died on this pavement
Memories for a lifetime
Give it all just for one night
Let's go back to the way it used to be
We had it all when we had nothing
Together we could conquer anything
Fragile dreams and cold concrete

Cuz this street was our playground
I can't believe that it's over now
Yeah these streets were our playground
I can't believe that it's over now

So as I stand here looking back
We've all taken different paths
The broken dreams we raise our glass
To promises that never last
To a street filled with so much hope
And to being young and broke
We only had one thing to fear
Singing this song right here

Cuz this street was our playground
I can't believe that it's over now
Yeah these streets were our playground
I can't believe that it's over now
